

ENVIRONMENTAL POLICY

The management of PL Beauty Cosmetics Kft. is aware of the fundamental demand for the establishment and development of environmental awareness, for achieving its long term objectives.

The company co-ordinates its economical and environmental activities so as to maintain and improve its competitiveness.

In the Environmental Policy the company management declares its commitment, supports its realisation, fulfils legal provisions and meets requirements, and besides, improves its environmental activities.

The company pays preferential attention to the delivery and maintenance of the controlled, documented, regulated disposal of dangerous waste and polytechnic material.

The company pursues its environmental activities, protects the environment according to the latest norms of Western European and Hungarian legal provisions and regulations.

To achieve these objectives, the company declares that/to

- when it is possible, it gives advance to eco-friendly, material and energy-saving solutions
- put emphasis on selective waste collection, recycling, and disposal in compliance with regulation, along with the reduction of the quantity of wastage
- strive for the in-house re-use of packaging wastage, while searching for other possibilities of re-use
- partner in the development and manufacture of natural, eco-friendly products
- endeavour to keep a clean, tidy, eye catching environment
